MRS. H. B. STOWE'S OPINION.

From a Letter in The Independent of Feb. 23.

The most complete and thorough work of this kind, hou ever, is one entitled. Cut Seabard Slave States, by Mr. Free eric Olmated, already known to the public by his. Walks an Talka in England. Mr. Olmated's book is the most thorough exposé of the economical view of this subject which has even appeared. Himself a practical farmer, having visited and surveyed the farming of the New. His style is simple, natural and araphic; and he is so far from being export in an araphic; and he is so far from being export.

BY MARION HARLAND.

By Marion Harland.

"Through long, long years, to seek, to strive, to yearn, For human love, and never quench that thirst:
To pour the human soul out, winning no return—O'er fragile idois, by delusions sursed—On things that fall us, reed by reed, to leas.
To morm the changed, the fat away, the dead,
To send our troubled spirits through the unseen,
Intensely questioning for treasures fiel."
One elegant Itmo., uniform with the "Hidden Path."
It has created quite a sensation in literary circles, and me with an unseadly large sale. It has been reputated in England France and Germany, and has already acquired for the yout ful authores an envisible reputation as a writer of orimain and genius. "Alone" is a novel something after the class of Shriley" and "Jane Evre," in many of its characteristics, in insultely superior to both of those brilliant works of fictions it in eneral purity of tone and delicacy of sentiment. Less side ful in its plot, it is yet more natural and lifelike, and it not intensely worked up in its details to that pitch of excitement which stained readers of remance require, it is nevertheles made pleasing to those who prefer trainfall inclutors of life exaggerated and overwrought descriptions of human characteristics.

PUBLISHED THIS DAY, and for SALE by WOLFSDEN.

This book has more than an ephemeral interest; and while the reader will finish it for the asks of the story, the force and naturalness of many passages will lead him to reperses thom, and give the book a permanent place on his sheltes. The search for the lost child, Amy, the delightful "match stories," the retribution that overtook Bragley, and other scene. that might be ramed, could have been written only by a man of gentles. Wheever is familiar with life in rustic neighborhoods will find in this story some of the most exquisite touches, raminding him of home by the nost tender associations. Believing that the intrusic mornis of Wolfsdein will secure favor for it wherever it is known, the Publishers respectfully commend it to the attention of the public.

In 1 vol. 12mo., with illustrations by Billings. Price \$1.25.

This is also a story of New-England life. Its scenes have a strong and truttful local coloring; but they are mostly laid in populous villages. The author sketches character rather than minners, and shows the results of a varied reading in the style of composition. The story abounds in striking incidents; and the beautiful traits of the heroine, as they are developed in her changing fortunes, will win the reader's hearry admiration. The numer, elsary common-seme, and mutural eloquence of old "Father Snaw" must render him also a meat favorite. Some features of the story will recall "Shady Side" and "Sunny Side;" but the book, so far as it has any bearing upon the partonal relation, takes an independent and impartial view of the subject. In I vol. 12no. Price 81-25.
